

Insert your spirits into me
And I'll get rid of the waste that's been holding us back
Rid of the waste, holding us down.
Insert your sins into me and I'll never judge your ways.
Never throw a bible in your face
Prolly, a lil sage and some Marvin
Gaye, light a little candle
Then lick off your old ways
I'll sin with you, in 100 different ways
Insert your heart unto mines
and allow my dark moon to amalgamate, until it's intertwined
Insert your fears into me
and I will bury dem

deeper than mine.

Insert your seeds

And I'll grow you a garden

And you'll always have a tree's

Let us ,insert vulnerability, and I stand firm in commitment

Together we will submit.

Together, we will be lit

To - get -there

we must get there

To get there, we shall be.

-----Together-----
