

The Urban Love Story Poem

BEHOLD

SHE HOLDS THE GLOBE"

I DON'T KNOW ABOUT YOUR'S

BUT INBETWEEN MINE, IS LIKE PURE GOLD!

Have you Eva" made love so sweet

Hmm...

that when you woke up the next morning, your smile was so" BIG", that it was frightening It's almost like you've been lost through a jungle of woods, trapped with all the wrong kind, awaiting to find the one that'll come and free Mankind. God' Damn' That's Fine!

Very rare and hard to find.

His Kisses are like fine Chocolate from the Duchess, the most tasteful of its kind!

His kisses feel like the ecstasy of taboo in a daze off this sip.

Hold steady baby, rock with me like Freddie, and please don't trip.

The best of its kind like the finest ganja, you'll be amazed on my ship.

Think I'm gonna need a Toxicologist, for your love is surely toxic!

The way he stares at me from the back,

I can feel, him when he sweats,

I can feel the heat flame, up, within him, like fire on his chest.

But the way my, heart pounds, when he walks by

He should be held in contempt!!!

I'm like a river that flows in your mind

and you're just ready to dive in.

I'm like the soft pillows,

you lay in and melt beside

Fall asleep in "WE" and I'll still make your nature rise!

I'm your smooth, operating machine, built by your hands,

and trust you won't have to go lefty,

no curves baby because I'm in command!

'Yes. we must move safely and that's my only demand.

Days are not like they use to be, so we must do a careful dance.

Got me in a trance, loving, romance in this love, advance

101 Heaven Glance....

And when I look at you,

I do see much more

"BUT" for me to resist you is like

A FAT GIRL RESISTING S'MORES!

He says, he loves the way I bake

he told me to put it on 360 so he can drool over the cake

Yes, in a circle, spin around and make it worth it

twirl around and make me work it.

YES, YES, OH GAWD ,I understand his purpose.

He Loves my rich icing, he always gets the first taste

With me, every day is his mutahfuckin birthday!

Pressure building up, I can feel he's tense

He ain't gotta be no bitch, but he gone scream like Prince.

Still in control like a, A1- Pilot

I'm so Gangster baby, we gone pull all night Riot.

Watch me jump on dat di**ck and do a drive by, By It!

Rules don't even abide by him.

Damn I want some more

You'll be mines to steal.

I am always confident!!!

The baddest wet dream, eva made real!

And the fact that we're not dreaming anymore

It's like fireworks, everything is out the package and up in the air.

DON'T IT LOOK SO BEAUTIFUL FROM WAY UP THERE!

.... (your eyes so alert) ...

Ignite me let's go away, somewhere far,

somewhere they won't hear me scream.

because the 'Geographic Orgasm' will be so historic they'll have to put it in a movie scene.

But there's No Actors here.

Just me and you,

No directors to direct you, in what you need to do!

For you are mines, and I've already set my mark.

Yeah... when I get you it may be just a matter of time of expression and fine art!

The fact that I'm so damn busy, I sigh.

But work is no excuse on my line

nothing is too big on my plate

I'll escape for you out the bathroom window on my lunch break...

And It's a date, when I hold you, it feels like I'm holding the 'Golden Rod'

Thou shall protect me and do me no harm!

Got damn, I love the fact, that you're so strong

A' 'Masterpiece u are because with me physically and mentally you'll need to be.

For I'll dine you and wine you, like the Queens, did the Kings In (B.C.)

I'll love you and feed you, the need to only be with me.

Serve you all Divine Intensity, so that you'll become one with me.

For I am selfish and that may very well be

But how does a Queen look, sharing her Filet Mignon, with a cheap piece.

I am your light and you are my tunnel

I will find my way through your mind and my body will follow.

Sometimes I just wanna say phuck my mind C'mon daddy Let's Go!!!!

I just wanna lay with you beneath or underneath the white sheets of your kingdom glow!

I just wanna play with you in ways, you wanna play with me

like finding all the right spots and I'll surrender to all shows.

Build me, a main stage, in you room

watch me, let go and please don't let go.

I just wanna run with you through the sand,

lay naked, while the wind blows on your tree of example.

“WOW WHAT A LOVELY SAMPLE “

We rollover, in the sand, while love, tussles.

And the OCEAN, (Spies) and peeps, up at us and chuckles.

Come rescue me of what needs to be rescued.

Come dance with me, even if you have two left feet.

For I " am yours once you let those foolish, women down

I" am yours, once THE WORD"S COME OUT YOUR MOUTH!

“Behold, after me there will be no more.
